

RF Bi directionnel Power Coupler

RFC001250-40-600

This bidirectional power coupler is designed for reliable, trouble-free service.

Features :

- * 600 Watts
- * 40 dB coupling typ

Applications :

- * RF links monitoring
- * Test Bench
- * Field Test
- * Instrumentation, EMC

Specifications

Characteristics	Data	Units
Frequency range	0,01 - 250	MHz
RF power CW		
Typ.	650	W
Min	600	W
Coupling factor typ	40	dB
Flatness	+/- 1 dB	dB
Insertion loss	< 0,35 dB	dB
In / Out impedances nom.	50	Ohms
Input VSWR	< 1,2 : 1	
Directivity	> 20	dB
RF connectors	N female	
Coupling connectors	BNC female	
Operating temperature Range	-20 °... + 70	° C
Dimensions (W x L x H)		
All data at room temperature + 22 °C, into 50 Ohms, subject to change without notice		

Made in European Union

10/06/2001
